REVISED 01 11 2022

# Bio-based breathable plaster.

**A versatile two-coat plaster that  
breathes life back into your building.**

## **Triple action against mould and condensation**

Proven to passively improve indoor air quality and reduce problems with mould and condensation. A fabric first solution for warmer walls and healthier homes.

## **Performance lime-based plaster**

Quick setting time per coat allows for faster completions compared with common lime plasters. Complete jobs in as little as 3 hours start to finish.

## **Design choice of textured or smooth finish**

Easy to achieve a variety of naturally beautiful finishes.
